

Kath Bee's Bubble Mixture

WHAT YOU NEED:

the help of an adult

a wooden spoon for stirring

a cup of water

2 tablespoons of glycerin/glycerol (you can buy this at a chemist shop)

a jug with a pourer, to mix the mixture in

small containers to store the mixture in

4 tablespoons of dishwashing liquid (any kind)

WHAT YOU DO:

Pour the water into the jug

Add the dishwashing liquid

Then add the glycerine/glycerol.

Gently stir the mixture together. You don't want to mix it quickly and make lots of bubbles.

Pour the mixture into the containers and leave it to sit for a while.

Then make amazing bubbles with it, using a bubble wand.

(If you don't have one of those, come back for Kath Bee's Bubble Wand, next week! :o)

Send us a photo of your bubbles and let us know how you get on!

Have fun! xox
