

Yardley's Peg People

WHAT YOU NEED:

the help of an adult

scraps of fabric

scissors

scraps of wool/feathers/cotton wool

pipe cleaners

some old wooden pegs

loom bands (or very small rubber bands)

a hot glue gun (or craft glue)

little craft eyes permanent markers

assorted buttons and beads

WHAT YOU DO:

Take a wooden peg and decide what kind of character you want to make.

Cut a piece of fabric into a strip, long enough to wrap around the peg a couple of times and deep enough to cover the peg's "body". Wrap the strip around the peg and hold it in place with a loom band, wrapped tightly over it.

Cut a feather to size/plait some strands of wool/pull a cotton ball into shape or shape any other type of material you like into the peg person's hair. Glue this on top of the peg with a glue gun or craft glue.

To make a funky hat Yardley used two buttons, glued together, which she then glued on top of her peg person, but you could use anything – scraps of tinfoil/a bottle top/plastic lid etc

Glue tiny eyes on the face of the peg, then add the other facial features with permanent marker. For Yardley's Black Stick Peg Team she printed off pictures of the team and glued them on to her pegs.

Give your peg people shoes with a permanent marker and give them arms using a pipe cleaner; twisting the pipe cleaner around it's body and gluing it in place.

You could make a family, a team or even a town of peg people!

Have fun! And maybe send us a picture of your peg person when you're finished :o)
